Construction of Anecut across Lakshmanathirtha River in South Coorg.

*Q.—283. Sri K. P. KARUMBAYYA (Virajpet).—

Will the Government be pleased to state :—

(*a*) the stage at which the construction of Anecut across Lakshmana Thirtha River in South Coorg stands ;

(*b*) what is the revised estimate of expenditure for this scheme ;

(*c* how many acres of fresh land will be irrigated from the waters of this Anecut and how many acres from Coorg District and how many from Mysore District ;

(*d*) whether it is a fact that the Anecut site is changed now and the proposed Anecut is to be constructed at the confluence of the tributaries of Rama Thirtha and Lakshmana Thirtha;

(*e*) the extent of area that will be submerged consequent upon the proposed change of Anecut site and of this area and what is the area under paddy cultivation now ?

*A.—Sri H. M. CHANNABASAPPA (Minister for Public Works and Electricity).—

(*a*) The construction of Lakshmanathirtha anicut is nearly completed and the Left Bank Channel taking off from the anicut has been excavated for about 12 miles length with the exception of some portions in the middle.

(*b*) About Rs. 81 lakhs for the entire scheme.

(*c*) This scheme was meant only to assure water supply to the existing atchkat of 3,200 acres in Coorg District during the period from September to November. No fresh atchkat was contemplated under the project.

(*d*) The question of constructing a reservoir below the confluence of Ramathirtha and Lakshmanathirtha at a suitable site in addition to the anicut is being considered.

(*e*) if the reservoir referred to under (*d*) above is constructed, it is expected to submerge about 3,840 acres of which 1,800 acres are wet lands.

Sri K. P. KARUMBAYYA.—May I know the area that will be brought under cultivation if the reservoir contemplated under (*d*) is constructed ?

†Sri H. M. CHANNABASAPPA.—No fresh atchkat is going to come under irrigation.

Sri K. P. KARUMBAYYA.—Then may I take it that for an expenditure of Rs. 81 lakhs incurred for the construction of this anecut, only an area of 3,200 acres will be brought under cultivation ?

Sri H. M. CHANNABASAPPA.—That is all that was proposed originally.

Mr. SPEAKER.—Sri B. N. Boranna Gowda has been authorised to put Question No. 305.
